

EL DORADO COUNTY FIRE PROTECTION DISTRICT

STANDARD OPERATING GUIDELINE

ARTICLE 3: EMERGENCY PROCEDURES & OPERATIONS

EFFECTIVE DATE:

SECTION 10: SIERRA PACIFIC MILL RESPONSE PLAN

REVISED: 04-12-2006

- 3.10.1 **PURPOSE:** To create a Procedure with the Lumber Company that can utilize the expertise of the employees of the mill, and assist crews to locate and clarify/rectify any problem.
- 3.10.2 **PROCEDURE:** The first in responding officer, will contact the mill on the high band mill frequency and state the following: Mill Supervisor, Engine 21, (or whatever the designator of the first in engine). When the supervisor responds to you, confirm the location and type of incident. Advise all other responding apparatus accordingly.
- 3.10.3 If the Mill Supervisor reports to you that the problem has been located, (Example: water flow alarm, medical aid etc) adjust the response as necessary. If the situation is unknown or unable to locate, continue full response until you arrive and then augment the dispatch as necessary.
