

EL DORADO COUNTY FIRE PROTECTION DISTRICT
STANDARD OPERATING GUIDELINE

ARTICLE 1: GENERAL INFORMATION

EFFECTIVE DATE:

SECTION 2: INTRODUCTION

REVISED: 02-01-2020

- 1.2.1 Over the past year, the El Dorado County Fire Protection District has undertaken the task of rewriting and updating the District's policy manual for District functions and activities.
- 1.2.2 Traditionally, these types of documents are perceived as either negative or punitive in nature and content. It is the desire of the Administration of the Fire District to use this document in a positive way to give the personnel a resource for finding information necessary to complete their assignments.
- 1.2.3 It is an impossibility to draft policies to cover every conceivable situation or task. In those situations, common sense should still prevail. In the event that it becomes necessary, this document can and should be amended to reflect changes in the Organization.

Signed:

Tim Cordero
Fire Chief
